SKILLS

Typescript (Experience in utilizing typescript with a focus on ensuring type safety and increasing code reliability.)

React (Proficient in React for web app development, including UI creation and state management, with a focus on delivering high-quality results.)

NextJS (Experienced with Next.js for building server-side rendered and static websites. Developed responsive and interactive SPAs using Next.js, optimizing performance and user experience.)

JavaScript (Proficient in JavaScript and its modern frameworks for developing dynamic and responsive web applications with a focus on enhancing user experience.)

Redux Tool-kit • **Tailwind CSS**

Framer Motion • **HTML** • **CSS**

EDUCATION

Federal University Of Technology, Owerri,
[Geology](#)
Nigeria

PROFILE

Self-taught web developer with 2 years of hands-on expertise building interactive SPAs using React + TypeScript. Skilled in NextJS and passionate about collaborating in diverse, dynamic teams. Committed to continuous learning and delivering high-quality code to drive impactful results. Ready to contribute and excel in a stimulating environment.

PROJECTS

Personal Portfolio

Developed using React, TypeScript, and minimalistic animations with Framer Motion. It presents my projects and skills, providing visitors with an engaging window into my work

DevJobs [↗](#)

A responsive job search application built with React, featuring search filters and seamless page navigation using React Router. Developed as a challenge project from Frontend Mentor.io, it showcases my proficiency in React and demonstrates my ability to create user-friendly web experiences.

Wind-BnB [↗](#)

Built a responsive web application for house hunting for short stays, allowing users to search and filter through a database of houses.

Space Tourism site [↗](#)

I completed a frontendmentor.io challenge and built a space tourism site. I implemented responsive design and efficient state management techniques. I was also able to gather stronger experience with tailwind css building this project.
